Note 1 - Corporate information

Keppel Philippines Properties, Inc. (KPPI or the "Parent Company") was incorporated in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on February 7, 1918 primarily to invest or acquire interest in, purchase, own or hold, directly or indirectly, shares of stocks and to undertake in property development activities through its associates and joint venture. The Parent Company's corporate life was extended for another fifty (50) years starting February 7, 1968. On May 5, 2017, the Parent Company's corporate life was further extended for another fifty (50) years from February 6, 2018.

The Parent Company is listed in the Philippine Stock Exchange (PSE) through an initial public offering (IPO) in 1989. There was no follow-on offering after the IPO. Its immediate parent company is Keppel Management Ltd. (KML; previously known as Keppel Land Limited) and the ultimate Parent Company is Keppel Ltd. (KL, previously known as Keppel Corporation Limited), both incorporated in Singapore. KL is listed in the Singapore Exchange Securities Trading Limited.

As of March 31, 2025 and December 31, 2024, the shareholders of the Parent Company are the following:

Shareholders	Percentage of ownership`
KML	50.49%
Kepwealth, Inc.	17.37%
KL	12.18%
Molten Pte. Ltd.	6.79%
Public	13.17%

The 86.83% total shareholdings of KML, Kepwealth, Inc., KL and Molten Pte. Ltd. were lodged with the Philippine Depository and Trust Corporation as of March 31, 2025.

The public ownership represents 7.17% direct ownership and 6.00% through PCD Nominee Corporation as at March 31, 2025 and December 31, 2024.

The Parent Company holds investments in associates (Note 7).

As at March 31, 2025 and December 31, 2024, the Parent Company's subsidiary and associates, which were all incorporated in the Philippines are as follows:

	202	25	202	24	
	Percentage of	Effective ownership	Percentage of	Effective ownership	
	ownership	interest	ownership	interest	Nature of business
Subsidiary					
Buena Homes, Inc. (BHI)	-	-	100	100	Investment holding

Keppel embarked on a multi-dimensional transformation to turn from a balance sheet player into an asset-light asset manager, from a conglomerate with vertical silos into a horizontally integrated company with end-to-end value chains. The Parent Company is conducting strategic reviews to synchronize with the transformation and will continue to explore possible avenues to maximize shareholders' value.

Aligned with this transformation strategy, dormant subsidiaries and associates of the Parent Company applied for dissolution through the shortening of their respective corporate terms. These entities have sufficient cash to settle all its third-party creditors before its dissolution.

BHI was incorporated in the Philippines on May 25, 2000. BHI, a wholly-owned subsidiary of the Parent Company, was previously engaged in property holding and development. On November 14, 2023, BHI's Board of Directors (BOD) approved BHI's dissolution through shortening of its corporate term effective on January 31, 2025 which was approved by the SEC on January 31, 2024. On April 4, 2025 and April 15, 2025, BHI completed the processing of its business closure with the Municipality of Mandaluyong City and the Bureau of Internal Revenue (BIR), respectively. On March 31, 2025, BHI declared liquidating dividends to the Parent Company amounting to P11.2 million that resulted in a loss from deconsolidation amounting to P0.3 million (Note 8) and the derecognition of the Parent Company's investment in BHI.

CSRI was incorporated in the Philippines on October 25, 1990. CSRI, a wholly-owned subsidiary of the Parent Company, is a holding company with investments in marketable equity securities and other investments. On December 2, 2022, CSRI's BOD approved CSRI's dissolution through shortening of its corporate term effective on January 31, 2024 which was approved by the SEC on February 3, 2023. On March 25, 2024 and July 18, 2024, CSRI completed the processing of its business closure with the Municipality of Mandaluyong City and the BIR, respectively. On April 26, 2024, CSRI declared liquidating dividends to the Parent Company amounting to P7.8 million that resulted in a loss on deconsolidation amounting to P0.2 million (Note 8) and the derecognition of the Parent Company's investment in CSRI.

ORDC, OVI and OKEP were incorporated to acquire by purchase, lease, and to own, use, improve, develop, subdivide, sell, mortgage, exchange, lease, develop and hold for investment or otherwise, real estate of all kinds. On July 26, 2024, the BOD of these associates approved the dissolution through shortening of their corporate term effective on September 30, 2025 which was approved by the SEC on September 11, 2024 for ORDC and on September 16, 2024 for OVI and OKEP. The process of dissolution with the relevant local government agencies and with the BIR will commence after September 30, 2025.

The Parent Company has 1,008 and 1,003 shareholders, owning 100 or more shares each, as at March 31, 2025 and December 31, 2024, respectively.

The Group's principal and registered office address is at 26th Floor, The Podium West Tower, ADB Avenue, Wack-Wack Greenhills, Mandaluyong City. As at March 31, 2025 and December 31, 2024, the Group has three (3) employees.

Note 2 - Cash and cash equivalents

The original cost in investment in the Club Filipino Inc. de Cebu shares amounted to Po.2 million as at March 31, 2025 and December 31, 2024. No movement in the fair value gains on financial assets at FVOCI was recognized by the Parent Company for the three months ended March 31, 2025 and 2024.

(b) Preferred equity securities

Preferred equity securities pertain to investments in redeemable preferred shares of OVI and OKEP which were acquired in 2012 at ten pesos (P10) per share. These investments are classified as financial assets at FVOCI as the characteristics of the investments do not give the Group significant influence over OVI and OKEP. These investments are carried at cost less impairment as they do not have a quoted market price in an active market and their fair values cannot be reliably measured.

The features and conditions of the redeemable preferred shares are as follows:

- Non-voting, except for the cases provided for under Section 6, Paragraph 6 of the Corporation Code of the Philippines.
- Entitled to preference in the distribution of dividends. After payment of such preferred dividends, the holders of such preferred shares shall be entitled to participate pro rata with holders of common shares in the remaining profits.
- Redeemable at the option of the issuer, in full or in part, within a period of ten (10) years from date of issuance, at a price to be determined by the Board of Directors (BOD).
- If not redeemed within the period of ten (10) years, the holder shall have the option to:
 - (a) Convert the preferred shares to participating preferred shares; or
 - (b) Hold the redeemable preferred shares for another five (5) years, after which the holder can choose to convert to either common shares or participating preferred shares.

Redeemable preferred shares of OVI and OKEP are redeemable at the option of the issuer within a call period of ten (10) years from February 29, 2012 and March 2, 2012, respectively. Upon expiration of the redemption period, OKEP and OVI did not exercise its right to redeem the preferred shares from the Parent Company. On May 11, 2022, the Parent Company's BOD approved to hold the redeemable preferred shares for another five (5) years. On July 29, 2022, the BOD of OKEP and OVI accepted the Parent Company's decision to continue to hold the preferred shares.

On February 2, 2024, the Parent Company's BOD approved the acceptance of OKEP and OVI's redemption of 3,128,722 and 4,800,000 preferred shares, respectively, held by the Parent Company at a redemption price equivalent to the issue price of P10.00 per share. The Parent Company collected redemption price from OKEP and OVI amounting to P31.3 million and P48.0 million, respectively, on February 12, 2024.

Note 6 - Sale of investment in joint venture

On March 25, 2023, a Share Purchase Agreement was executed between the shareholders of SM Keppel Land, Inc. (SMKL) for KPPI and OKEP (collectively the "Seller") to sell all its redeemable preferred shares and common shares in SMKL constituting 40% and 10% interest held in SMKL, respectively, to BDO Unibank, Inc. (BDO). The completion of the sale had been subjected to the satisfaction of conditions precedent, including but not limited to the obtaining of the requisite regulatory approvals and shareholders' approval of KPPI and OKEP.

With the expected recovery of the investment's carrying value through sale, the Group's investment in SMKL (previously presented under non-current assets as "Investment in associates and joint venture") was classified as "Investment in joint venture held-for-sale" in accordance with PFRS 5, Noncurrent assets held-for-sale and discontinued operation. The carrying amount of this investment amounted to P2,902.7 million as at March 31, 2023 and is deemed to be lower as compared to its fair value less cost to sell. The Parent Company determined the fair value less cost to sell to be the agreed price stated at the Share Purchase Agreement reduced by incremental related expenses (cost to sell). There were no significant movement in carrying value from March 25 to March 31, 2023.

The carrying amount of the investment in joint venture as at March 31, 2023 follows:

	Amount
January 1	
Cost	602,645,772
Accumulated share in equity	2,251,022,018
	2,853,667,790
Share in equity of SMKL	48,993,780
March 31	2,902,661,570

The Group recognized share in equity from SMKL's operation from January 1, 2023 up until March 31, 2023, the date of re-classification to assets held-for-sale, in accordance with the share purchase agreement. The amount is recorded under share in net income of associates and joint venture in the consolidated statements of total comprehensive income.

The sale was completed with the satisfaction of all conditions precedent on December 22, 2023 (the closing date).

Below summarizes the details of the sale of the investment in joint venture.

	Amount
Purchase price	6,528,677,503
Cost to sell	(35,164,170)
Net purchase price	6,493,513,333
Carrying amount of investment in joint venture held-for-sale	(2,902,661,570)
Gain on sale of investment in joint venture before taxes	3,590,851,763
Capital gains tax	(909,280,125)
Gain on sale of investment in joint venture after taxes	2,681,571,638

The purchase price consists of share in the net asset value of SMKL after adjustments as approved and agreed between the Sellers and BDO as at closing date. On the same date, the Parent Company has collected P6,521.7 million of the purchase price, while the remaining P7.0 million was collected in January 2024.

The cost to sell include actual incurred transaction costs amounting to P1.4 million and provisions amounting to P33.8 million for the Parent Company's share in any unrecorded liabilities and condominiumization expense of SMKL to be determined no later than one year from its sale, which were agreed between the Sellers and BDO in the Share Purchase Agreement.

Capital gains tax resulted from the gain on sale of investment in joint venture, payable within 30 days from the completion of the sale. This tax was paid in January 2024.

The Parent Company's share in net income of associates from OKEP's sale of its 10% interest in SMKL are summarized below:

		Parent	
	Gain on sale of	Company	Parent Company's
	SMKL investment	ownership	share
OKEP	705,856,269	40%	282,342,508
OVI	423,513,761	40%	169,405,505
ORDC	254,108,257	40%	101,643,302
Total	1,383,478,287		553,391,315

For the period from January 1 to March 31, 2023, the Parent Company recognized share in net income in SMKL through OKEP amounting to P9.6 million.

Following the sale of investment in joint venture, the Parent Company presented the resulting gain on sale of its investment in joint venture and the Parent Company and OKEP's share in net income of SMKL from January 1 to March 31, 2023 as part of discontinued operation in the statement of total comprehensive income. Prior year's share of the Parent Company and OKEP's share in net income of SMKL were also reclassified for comparative information and presentation.

Likewise, the assets and liabilities related to the sale of investment in joint venture which include Receivable from sale of investment in joint venture, Capital gains tax payable and Provision for transaction cost, are presented as part of discontinued operation in the consolidated statement of financial position as of December 31, 2023.

Note 13 - Financial risk and capital management

13.1 Financial risk management

The Group's principal financial assets and financial liabilities comprise cash and cash equivalents, receivables, financial assets at FVOCI, due to and from related parties, refundable deposits, accounts payable and other current liabilities. The Group has various other financial assets and financial liabilities which arise from its operations.

The main risks arising from the Group's financial instruments are foreign currency risk, credit risk, and liquidity risk. The Group's BOD and management review and agree on the policies for managing each of these risks as summarized below:

(a) Foreign currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Group's exposure to foreign currency arises mainly from its time deposits as at March 31, 2025 and December 31, 2024.

The Group's foreign currency-denominated monetary liabilities in United States Dollars (USD) are as follows:

	March 31,	December 31,
	2025	2024
Cash equivalents	3,004,495	2,964,886
Exchange rates	57.21	58.80
PHP equivalent	171,887,159	174,335,293

The Group did not have foreign currency-denominated monetary assets and liabilities other than the short-term deposits as at March 31, 2025 and December 31, 2024.

The Group manages its foreign currency exposure risk by matching receipts and payments in each individual currency. Foreign currency is converted into relevant domestic currency as and when the management deems necessary.

The following table demonstrates the sensitivity to a reasonably possible change of 2.70% (2024 - 2.17%) in the Philippine Peso exchange rate, with all other variables held constant, of the Group's income before tax. There is no impact on the Group's equity other than those already affecting the net income.

	Net income	Net income
	before tax	before tax
	increase	increase
	(decrease)	(decrease)
	March 31,	December 31,
	2025	2024
PHP against USD		
- strengthened	3,729,951	3,783,076
- weakened	(3,729,951)	(3,783,076)

The Group used the average exchange in closing rates for the year in determining the reasonable possible change in foreign exchange rates.

(b) Interest rate risk

Interest rate risk is the risk that the value/future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group has no significant exposure to interest rate risk on cash and

cash equivalents as these are subject to fixed interest rates. As such, the Group's income and operating cash flows are substantially independent of changes in market interest rates.

(c) Credit risk

Credit risk arises when the counterparty to a financial asset of the Group is unable to fulfill its obligation at the time the obligation becomes due. Credit risk arises from the Group's financial assets, which comprise cash and cash equivalents, receivables, due from a related party, financial asset at FVOCI and refundable deposits. As at March 31, 2025 and December 31, 2024, the carrying values of the Group's financial instruments represent maximum exposure to credit risk at reporting date.

There are no financial assets and liabilities that are offset and reported as net amount in the interim consolidated statement of financial position. There were no amounts subject to an enforceable master netting arrangement or similar agreement as at March 31, 2025 and December 31, 2024.

The Group transacts mostly with related parties, thus, there is no requirement for collateral. The Group's due from a related party are approximately 6.57% and 8.33% of total receivables as at March 31, 2025 and December 31, 2024, respectively.

A default on a financial asset is when the counterparty fails to make contractual payments within 60 days or when they fall due.

Below are the Group's financial assets classified under three categories which reflect their credit risk as at March 31, 2025 and December 31, 2024:

The above assets were classified by the Group based on changes in credit quality under three-stage model for impairment. Stage 1 pertains to assets of the Group that is not credit-impaired on initial recognition. Stage 2 pertains to assets of the Group with significant increase in credit risk but not yet deemed to be credit-impaired. Financial assets that are credit-impaired are classified under Stage 3.

The Group applies PFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for trade receivables presented under receivables and due from related parties. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due.

^{**}Receivables exclude receivable from a government agency amounting to Po.1 million.

^{***}Refundable deposits is presented under "Prepayments and other current assets."

The loss allowance as at March 31, 2025 and December 31, 2024 was determined as follows:

(i) Cash and cash equivalents and accrued interest

Cash and cash equivalents and related accrued interest have minimal exposure to credit risk as the Group only transacts with reputable banks and financial institutions that are independently rated parties with good, if not the highest credit ratings, such as universal and commercial banks as defined by the Philippine Banking System.

The remaining cash in the interim consolidated statement of financial position pertains to cash on hand which is not subject to credit risk.

(ii) Receivables

Receivables from related parties

The credit exposure of the Group on receivables from related parties is considered to be low as these parties have no history of default and have a strong credit history. Additionally, credit risk is minimized since the related parties are paying on normal credit terms based on contracts.

The maximum credit risk exposure is equal to the carrying amount as at March 31, 2025 and December 31, 2024.

Other receivables

As at March 31, 2025 and December 31, 2024, other receivables are classified as fully performing and no history of default.

None of the financial assets that are fully performing has been renegotiated in the last year.

(iii) Financial asset at FVOCI

Financial asset at FVOCI consist primarily of redeemable preferred shares. Financial asset at FVOCI is reported at carrying amounts which are assumed to approximate their fair values (Note 5).

The maximum credit risk exposure is equal to the carrying amount as at March 31, 2025 and December 31, 2024.

(iv) Refundable deposits

Refundable deposits consist primarily of amounts related to the Group's lease agreements. Refundable deposits are reported at their carrying amounts which are assumed to approximate their fair values. There is no significant credit exposure on refundable deposits since these are recoverable at the end of the lease term.

(d) Liquidity risk

Liquidity risk is the risk that the entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and short-term deposits. The Group also monitors its risk to shortage of funds through monthly evaluation of the projected and actual cash flow information.

The table below summarizes the maturity profile of the Group's non-derivative financial liabilities based on contractual undiscounted payments:

^{*}Accounts payable and other current liabilities exclude taxes payable.

13.2 Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions.

The Group monitors capital using percentage of debt to equity, which is total liabilities divided by total equity net of treasury shares. The Group's policy is to maintain the percentage of debt to equity ratio below 100%. The Group includes, within total debt, accounts payable and other current liabilities and amounts due to related parties.

The Group's objective is to ensure that there are no known events that may trigger direct or contingent financial obligation that is material to the Group, including default or acceleration of an obligation.

There are no changes in the Group's objectives, policies and processes for managing capital from the previous period.

The percentages of debt to equity are as follows:

	March 31, 2025	December 31, 2024
Liabilities	121,675,711	125,959,512
Equity	487,390,435	487,750,573
Percentage of debt to equity	24.96%	25.82%

As part of the reforms of the PSE to expand capital market and improve transparency among listed firms, the PSE requires listed entities to maintain a minimum of ten percent (10%) of their issued and outstanding shares, exclusive of any treasury shares, held by the public. The Parent Company has fully complied with this requirement.

13.3 Fair value estimation

Due to the short-term nature of the Group's financial instruments, their fair values approximate their carrying amounts as at March 31, 2025 and December 31, 2024, except for financial assets at FVOCI.

The financial assets pertaining to investment in unquoted club shares are valued at FVOCI. Based on the Group's assessment, cost represents the best estimate of fair value as the instruments are unquoted securities.

Fair value hierarchy

The valuation of the financial assets at FVOCI is categorized as Level 3 measurement using cost which represents the best estimate of the fair value as the instruments are unquoted securities.

During the reporting period ended March 31, 2025 and December 31, 2024, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurement.

Note 14 - Summary of significant accounting policies

14.1 Basis of preparation

The interim consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards ("PFRS"). The term PFRS in general includes all applicable PFRS, Philippine Accounting Standards ("PAS"), and interpretations of the Philippine Interpretations Committee ("PIC"), Standing Interpretations Committee ("SIC") and International Financial Reporting Interpretations Committee ("IFRIC") which have been approved by the Financial Reporting Standards Council ("FRSC") and adopted by the SEC.

The interim consolidated financial statements have been prepared under the historical cost convention, except for the financial assets at FVOCI measured at fair value.

Changes in accounting policy and disclosures

Amendments and improvements to existing standards and interpretations adopted by the Group.

A number of new standards, amendments to existing standards and interpretations are effective for annual periods after January 1, 2025. None of these standards are expected to have a significant impact on the interim consolidated financial statements of the Group.

14.2 Consolidation

The interim consolidated financial statements include the accounts of the Parent Company and its subsidiaries as at March 31, 2025 and December 31, 2024 and for each of the period ended March 31, 2025 and 2024. Subsidiaries are all entities over which the Group has control. Subsidiaries are fully consolidated

from the date of acquisition or incorporation, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company, using consistent accounting policies. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Parent Company's accounting policies.

Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the interim consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company since the subsidiaries are wholly-owned by the Parent Company.

All intra-group balances, transactions and unrealized gains and losses resulting from intra-group transactions are eliminated in full.

Assessment of control

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee;
- o Exposure, or rights, to variable returns from involvement with the investee; and
- o The ability to use power over the investee to affect the amount of the investor's returns

The Group re-assesses whether or not it controls the investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

14.3 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The Group recognizes a financial instrument in the consolidated statement of financial position, when, and only when, it becomes a party to the contractual provisions of the instrument.

Financial assets

(a) Classification

The Group classifies its financial assets in the following measurement categories: fair value through profit or loss (FVPL), fair value through other comprehensive income (FVOCI) and amortized cost. The Group did not hold financial assets under the category financial assets at FVPL as at March 31, 2025 and December 31, 2024.

(i) Amortized cost

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. The Group's financial assets measured at amortized cost comprise cash and cash equivalents, receivables, due from related parties and refundable deposits in the consolidated statement of financial position.

(ii) FVOCI

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has

made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI. The Group's financial assets measured at FVOCI represent unquoted preferred shares of related parties and unquoted investments in club shares. These are classified as "Financial assets at fair value through other comprehensive income" in the consolidated statement of financial position.

(b) Recognition and measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs that are directly attributable to the acquisition of the financial asset.

Subsequent to initial recognition, measurement depends on the Group's business model for managing the asset and cash flow characteristic of the asset.

(i) Amortized cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in other gains/losses together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the consolidated statement of total comprehensive income.

(ii) Equity investments

The Group subsequently measures all equity investments at fair value through profit or loss, except where the Group's management has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income. The Group's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to generate investment returns. When this election is used, fair value gains and losses are recognized in OCI and are not subsequently reclassified to profit or loss, including on disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in profit or loss as other income when the Group's right to receive payments is established.

(c) Impairment

The Group applied the simplified approach permitted by PFRS 9, which requires expected lifetime losses to be recognized from initial recognition of receivables and due from related parties. Impairment testing of receivables and due from related parties.

Equity investments

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. For equity investments, a significant or prolonged decline in the fair value of security below its cost is also evidence that the assets are impaired.

If any such evidence exists the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss - is removed from equity and recognized in profit or loss. Impairment losses recognized in the profit or loss on equity instruments are not reversed through profit or loss.

(d) Derecognition

Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

Financial liabilities

(a) Classification

The Group classifies its financial liabilities in the following categories: financial liabilities at FVTPL (including financial liabilities held for trading and those that designated at fair value); and other financial liabilities. The Group's financial liabilities are limited to other financial liabilities at amortized cost.

Financial liabilities at amortized cost pertains to issued financial instruments that are not classified as FVTPL and contain contract obligations to deliver cash or another financial asset to the holder or to settle the obligation other than the exchange of a fixed amount of cash. These are included in current liabilities, except for maturities greater than twelve (12) months after the reporting period which are classified as non-current liabilities.

The Group's accounts payable and other current liabilities (excluding payable to government agencies), and due to a related party are classified under other financial liabilities at amortized cost.

(b) Recognition and measurement

Financial liabilities not carried at FVTPL are initially recognized at fair value less transaction costs.

Other financial liabilities are carried at amortized cost using the effective interest method.

Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty. As at March 31, 2025 and December 31, 2024, there were no offsetting of financial assets and liabilities.

14.4 Investments in associates

Associates are entities in which the Group has significant influence, and which are neither subsidiaries nor joint ventures of the Group. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The considerations made in determining significant influence is similar to those necessary to determine control over subsidiaries.

Investments in associates are accounted for using the equity method of accounting from the date from which the entity becomes an associate. The difference between the cost of the investments and the Group's share of the net fair value of the investee's identifiable assets and liabilities is treated as a "Fair value adjustment" and included in the carrying amount of the investment.

Under the equity method, the investments in associates are carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the associate, less dividends declared and impairment in value. If the Group's share of losses of an associate equals or exceeds its interest in the associate, the Group discontinues recognizing its share of further losses. The interest in an associate is the carrying amount of the investment in the associate and under the equity method together with any long-term interests that, in substance, form part of the investor's net investment in the associate. After application of the equity method, the Group determines whether it is necessary to recognize any impairment loss with respect to the Group's net investments in the associates. The consolidated statement of comprehensive income reflects the Group's share in the results of operations of the associates. This is included in the "Share in net (loss) income of associates" account in the consolidated statement of comprehensive income. After the Group's interest is reduced to zero, additional losses are provided to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

When there has been a change recognized directly in the equity of the associate, the Group recognizes its share of any change and discloses this, when applicable, in the consolidated statement of changes in equity.

The reporting dates of the associates and the Group are identical and the accounting policies of the associates conform to those used by the Group for like transactions and events in similar circumstances.

Unrealized gains arising from intercompany transactions with its associates are eliminated to the extent of the Group's interest in the associate. Unrealized losses are eliminated similarly but only to the extent that there is no evidence of impairment of the asset transferred.

Upon loss of significant influence over the associates, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associates upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss.

14.5 Events after the reporting period

Post period-end events that provide additional information about the Group's position at reporting date (adjusting events) are reflected in the interim consolidated financial statements. Post period-end events that are not adjusting events are disclosed in the notes to the financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

RESULTS OF OPERATIONS

Three months ended March 31, 2025 as compared to the same period in 2024

The Group reported a net loss for the period ended March 31, 2025 of £0.4 million, a complete reversal from the £79.3 million net income reported in the same period in 2024. This reversal is due to the following:

- O Decrease in **Interest income** by \$\mathbb{P}79.6\$ million due to the decline in short-term time deposit placements resulting from the payment of redemption price to KML and cash dividends to shareholders in 2024.
- O Changes in **SHARE IN NET (LOSS) INCOME OF ASSOCIATES** from period to period are dependent upon the results of the operations of the associates. The Group recorded a share in net loss of associates in 2025 of ₱0.1 million, as against the share in net income of ₱5.2 million in 2024.
- OTHER (LOSS) INCOME, NET. Against the ₱14.2 million income in 2024, the Company incurred a ₱2.1 million loss this quarter as the Group incurred unrealized foreign exchange loss this year of ₱1.9 million compared to last year's unrealized foreign exchange gain of ₱14.2 million

The aforementioned decreases in net income was partially offset by the following:

- o Decrease in **GENERAL AND ADMINISTRATIVE EXPENSES** by ₽0.6 million to ₽3.9 million in 2025 mainly due to lower taxes and licenses, repairs and maintenance, professional fees and rental.
- o Decrease in **INCOME TAX EXPENSE** by ₱21.0 million to ₱0.2 million in 2025 mainly due to the decrease in final taxes on interest income and the recorded deferred taxes on unrealized foreign exchange loss.

FINANCIAL CONDITION

As of March 31, 2025 as compared to as of December 31, 2024

TOTAL ASSETS decreased by ₽4.6 million from ₽613.7 million as of December 31, 2024 to ₽609.1 million as of March 31, 2025. The significant changes in account balances during the period are as follows:

- o **CASH AND CASH EQUIVALENTS** decreased by ₽4.8 million due to the net cash used in operating activities and payment of transactions costs related to the sale of an investment in joint venture.
- RECEIVABLES decreased by ₽0.1 million mainly due to the lower accrued interest income from lower short-term time deposit.
- O DUE FROM A RELATED PARTY decreased by Po.1 million due to collection.
- o **PROPERTY AND EQUIPMENT, NET** decreased by ₽0.02 million due to depreciation.
- o **INVESTMENTS IN ASSOCIATES** decreased by ₽0.1 million due to the share in results of associates for the period ended March 31, 2025.
- O DEFERRED INCOME TAX ASSETS, NET increased by ₽0.5 million due to the recognition of deferred tax on unrealized foreign exchange loss as of March 31, 2025.

TOTAL LIABILITIES decreased by ₽4.3 million from ₽126.0 million as of December 31, 2024 to ₽121.7 million as of March 31, 2025 mainly due to the payment of cash dividend and transaction costs related to the sale of investment in joint venture.

TOTAL EQUITY decreased by \$\mathbb{P}0.4\$ million from \$\mathbb{P}487.8\$ million as of December 31, 2024 to

₽487.4 million as of March 31, 2025 due to the net income recognized for the period ended March 31, 2025.
